2024/1190 - Domestic Abuse Victims

In response to your recent request for information regarding;

- **How many female domestic abuse victims has your force classed as high risk via the assessments your force uses for example Dara/Dash in 2024 to date with data broken down annually**
- **How many male domestic abuse victims has your force classed as high risk via the assessments your force uses for example Dara/Dash in 2024 with data broken down annually.**

Pronto was being run as a pilot before replacing the EOEL6 completely in mid-September. Pronto risk grading data is accurate as the risk grading field is mandatory within the Pronto module. The old EOEL6 template had a risk grading section which could be missed. We have extracted the data we can from the DASH forms where there is a positive indication it is high risk.

EOEL6 DASH Template - Risk Grading = High Risk = template was replaced by Pronto DASH template mid September

Month	Female	Male
