2024/392 - murder and manslaughter with secondary suspects

In response to your recent request for information regarding;

I am interested in data on those charged with a homicide offence (murder or manslaughter) where there was at least one other suspect charged with the same offence. I understand you collect this data as the force passes this on to the Home Office's Homicide Index, which logs whether a suspect is the principal or secondary suspect in any murder or manslaughter case.

For each year (2019, 2020, 2021, 2022, 2023), how many times the force charged someone with Murder and/or manslaughter, when there was at least one other person charged with the same crime.

If possible, for each year (2019, 2020, 2021, 2022, 2023), please breakdown the ethnicity of those charged with Murder and/or manslaughter, when there was at least one other person charged with the same crime.

If possible, for each year (2019, 2020, 2021, 2022, 2023), please breakdown the age ranges of those charged with Murder and/or manslaughter, when there was at least one other person charged with the same crime, by a. 14-17, b. 18-24, c. 25-29, d. 30-59, e. 60-69
