2025/005 - Disasters

In response to your recent request for information regarding;

Can you please advise on frequent disasters and ways to prepare for them?

Clarification

If you deal with any frequent weather-related disasters and ways to deal with the effects of them.

We have not had any weather related disasters in Force but we have responded to weather related incidents such as Storm Darragh and Storm Bert in recent months.

We would invoke our Severe Weather Incident Plan and set up a multi-agency PEAT (pre-event assessment Teleconference meeting in the first instance and if required escalate to a TCG (Tactical Coordination Group) to monitor the affect of the incident on partner agencies and respond quickly and effectively to protect the public from harm and saving lives.
