2025/126 - Motor vehicles stolen

Although excess cost removed the forces obligations under the Freedom of Information Act, as a gesture of goodwill, I have supplied information, relative to your request, retrieved or available before it was realised that the fees limit would be exceeded. I trust this is helpful, but it does not affect our legal right to rely on the fees regulations for the remainder of your request.

In response to your recent request for information regarding;

- 1. Please can you provide details of the number of motor vehicles stolen within your Force area for calendar years 2022, 2023 and 2024**
- 2. Please can you provide details of the number of motor vehicles subject to the 'unauthorised taking of a motor vehicle' within your Force area for calendar years 2022, 2023 and 2024**
- 3. Please can you provide the Make and exact Model recorded on your crime recording system in relation to request 1 and 2 within your Force area for calendar years 2022, 2023 and 2024**
- 4. Please can you advise how many of these motor vehicles were equipped with keyless entry**

Our information is set up and searchable for our policing purposes. To obtain the information in the format you have requested regarding 'how many of these motor vehicles were equipped with keyless entry' would involve manually reviewing each record on our force system. The cost of providing you with the information is above the amount to which we are legally required to respond i.e. the cost of retrieving the information exceeds the 'appropriate level' as stated in the Freedom of Information (FOI) Fees and Appropriate Limit regulations 2004.

Therefore, in accordance with the FOI Act 2000 the information you have requested is exempt under Section 12 (1), and this letter acts as a Refusal Notice under section 17 (5) of the legislation.

Additionally, the make/model is not consistently recorded within the fields we can abstract data from. Therefore, please find below the data we have been able to retrieve within the appropriate time limit:
