2025/370 - Driving without proper control of the vehicle offences

In response to your recent request for information regarding excess cost is relevant to part which removes the forces obligations under the Freedom of Information Act, as a gesture of goodwill, I have supplied information, relative to your request, retrieved or available before it was realised that the fees limit would be exceeded. I trust this is helpful, but it does not affect our legal right to rely on the fees regulations for the remainder of your request.

I would like to request the following information relating to the offence of driving without proper control of the vehicle (commonly associated with offence code CD10).

Please provide data for the last three calendar years: 2022, 2023 and 2024, with a monthly breakdown where possible.

Specifically, I would like to request the following:

Q1. The total number of cautions issued under the CD10 offence, broken down by month and year.

Q2. The total number of fixed penalties issued under the CD10 offence, broken down by month and year.

Q3. The total number of prosecutions initiated under the CD10 offence, broken down by month and year.

Q4. A full list or breakdown of all offences recorded under CD10 during this period.

Q5. Where available, any accompanying officer notes, incident descriptors, or free-text fields associated with CD10 offences.

Q6. If possible, please indicate whether any of the CD10 offences were related to driving with pets in the vehicle (e.g. where the presence or behaviour of a pet may have contributed to the lack of control). This could include any relevant details recorded in officer notes or free-text fields.

Q7. Please indicate the number of fines issued under the CD10 offence during each period and where held, the total revenue generated from these fines, broken down by each month of each calendar year.

Further to my recent Freedom of Information request regarding the offence code CD10 – driving without due care and attention, I would like to provide the following clarifications to assist with processing:

Offence Scope

Please note that I am requesting information specifically and solely related to the CD10 offence code, which refers to driving without due care and attention.

Fixed Penalty Notices / Conditional Offers (Q2) If your force does not issue Fixed Penalty Notices but instead issues conditional offers (comprising a fine and points on the licence), please confirm this within your response and include these figures under Q2.

Prosecutions Initiated (Q3)

For Q3, I am seeking data on individuals who were referred for court prosecution under CD10, regardless of whether a conviction followed. If available, please also include a breakdown showing how many of those referrals resulted in conviction. If only one of these figures is held, please provide what is available and indicate what the figure represents.

Fixed Penalty Notices

Year	Drive a mechanically propelled vehicle on a road / in a public place without due care and attention
2022	118
2023	138
2024	194
Grand Total	450
