2025/439 - Energy Contracts and Billing

In response to your recent request for information;

I am writing to request the contact details of the person or department responsible for managing your organisation's energy contracts and procurement.

We are currently conducting a nationwide review into the mismanagement of energy billing across the sector. Our findings show that around 98% of businesses are being incorrectly charged – including unnecessary Climate Change Levy (CCL) charges and overpaid VAT – due to exemptions not being properly applied.

To support this analysis and determine whether any corrections or refunds may be applicable, I would also be grateful if you could provide a copy of a recent electricity and gas bill (redacted where necessary) for review.

Copies of electricity bills/consolidated e-bills attached.

Please note the December 2024 electricity HH and NHH e-bills have been provided as the December billing has the complete estate and has less credits and reinvoices contained within them.

Note: The HH e-bill has two kWh values against each site; the lower value is for 'the energy at meter/building level'; the higher value is for 'the energy at meter/building level plus energy to transfer from sub-station to meter'.

Copy of gas bill/consolidated e-bill for March 2025 attached.

Note: If sites in the electricity bills are not showing in the gas billing, this is because these sites are either LPG or electric only sites and do not have gas.

THIS INFORMATION HAS BEEN PROVIDED IN RESPONSE TO A REQUEST
UNDER THE FREEDOM OF INFORMATION ACT 2000, AND IS CORRECT AS AT 16/04/2025
