Method

The injury road traffic collision (RTC) data is sourced from the Home Office Stats19 returns for the period of 01/03/2024 to 30/06/2025. Please note that 2024 and 2025 data is considered provisional, therefore subject to change. This data has been analysed and broken down by location, severity, vehicles involved in any injury collision.

Findings

There has been one slight collision in this location during the time period stated above and this occurred on the main roundabout in that area at 12:12hrs on the 6th of July 2024 which is plotted on the map below. This collision took place during daylight hours where the weather was fine with no high winds, and the road surface was damp. This was a two-vehicle collision involving a pedal cycle and a car which was entering the roundabout and was clipped by the pedal cycle causing slight injuries to the pedal cyclist. Co-ordinates for this collision are Easting 333859, Northing 350443
