2025/970 - Road traffic accidents

In response to your recent request for information regarding;

I would like to see statistics on road traffic accidents at a particular spot in Gwynedd. My son recently had a car accident at a roundabout near Penygroes and I have reason to believe this is a common accident blackspot.

Clarification requested;

Please could you provide more specific location details for us to review (either road number or co-ordinates)?

Clarification received;

The roundabout in question is where the A487 meets the B4418. It is often called the Inigo Jones roundabout as this business is in close proximity and is to the North of Penygroes, grid reference 471549.

Method

The injury road traffic collision (RTC) data is sourced from the Home Office Stats19 returns for the period of 01/01/2020 – 31/08/2025. Please note that 2024 & 2025 data is considered provisional, therefore subject to change. This data has been broken down to show how many injury and damage only collisions there have been during the above period and a distance of 250 metres either side of the roundabout.

Findings

There has been a total of 3 collisions, 1 serious, 1 slight and 1 non-injury in the above area in the last 5 years, with the 2 injury collisions occurring in 2023 and the non-injury in 2024.

THIS INFORMATION HAS BEEN PROVIDED IN RESPONSE TO A REQUEST
UNDER THE FREEDOM OF INFORMATION ACT 2000, AND IS CORRECT AS AT 16/09/2025
