

Response Date:02/03/2026

2026/153 - Offences on roads

In response to your recent request for information regarding;

Please provide data relating to offences on roads in North Wales for the most recent three calendar years available.

Specifically, I request:

A breakdown of roads or local authority areas ranked by the total number of reported hit-and-run incidents per calendar year (2023, 2024, 2025).

Please break this down by severity - fatal, serious injury, slight injury, damage-only.

How many of these hit and runs did the offenders go unpunished - ie, they evaded capture.

Please provide specific details for this - date and time of accident, who was knocked down etc...

Could you please also provide data for how many deaths have been recorded per year (2023, 2024, 2025) on each road where more than one fatal collision took place. If possible please note how many people died as a result of each collision, and how many children died

Where possible could you confirm what kind of vehicle was driven - and what brand and make of car if known

Our information is set up and searchable for our policing purposes. To obtain all the information requested would involve manually reviewing each record on our force system. The cost of providing you with the information is above the amount to which we are legally required to respond i.e. the cost of retrieving the information exceeds the 'appropriate level' as stated in the Freedom of Information (FOI) Fees and Appropriate Limit regulations 2004.

Therefore, in accordance with the FOI Act 2000 the information you have requested is exempt under Section 12 (1), and this letter acts as a Refusal Notice under section 17 (5) of the legislation.

Although excess cost removed the forces obligations under the Freedom of Information Act, as a gesture of goodwill, I have supplied information, relative to your request, retrieved or available before it was realised that the fees limit would be exceeded. I trust this is helpful, but it does not affect our legal right to rely on the fees regulations for the remainder of your request.

Method

The injury road traffic collision (RTC) data is sourced from the Home Office Stats19 returns for the period of 01/01/2023 – 31/12/2025. Please note that 2024 & 2025 data is considered provisional, therefore subject to change. This data has been broken down to show hit and run only [1 on the vehicle tab of Stats 19] collisions where injuries were sustained and further broken down by date,

Pencadlys yr Heddlu,
Glan-y-Don, Bae Colwyn LL29 8AW
www.heddlugogleddcymru.police.uk

Police Headquarters,
Glan-y-Don, Colwyn Bay LL29 8AW
www.northwales.police.uk

time, road class, road number, severity, casualty group and casualty class. This data also shows the number of collisions along with the number of casualties per collision. We are unable to provide this detail for damage only collisions.

Please see attached data.

Could you also confirm how many accidents took place on the roads involving police cars.

Please break this down by - No. of claims, Damages Paid, Police Force Legal Costs paid, Claimant legal costs paid, Total paid

The attached information is provided by our fleet department. They record the data purely for the purposes of checking our vehicles for damage and repair. The information is provided to them in the same way for any damage noted on vehicles for any reason and collisions (so includes things like chips).

We have manually removed information that obviously is not a collision however without reading through everything manually I cannot guarantee there are not non-collision reports included. It does not record if it's on a public road or not but again we have tried to remove anything that says Carpark in its location information to try to improve on the accuracy.

THIS INFORMATION HAS BEEN PROVIDED IN RESPONSE TO A REQUEST
UNDER THE FREEDOM OF INFORMATION ACT 2000, AND IS CORRECT AS AT 24/02/2026
