2026/232 - Road Traffic Collision Stats (accident data)

In response to your recent request for information regarding;

I am writing to request Road Traffic Collision (RTC) data to inform a Transport Assessment prepared in support of a planning application.

I understand this request should be made under the Freedom of Information process and that a fee may be applicable. I would be content to pay a reasonable charge for the provision of the data, subject to confirmation of cost.

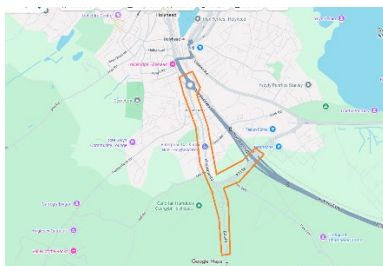

The data requested is non-personal collision data only (e.g. date, time, location, severity, collision type, and road conditions where available).

To limit the scope of the request, I would be grateful if the search could be confined to:

- **A defined section of highway approximately 200–500 metres in all directions from the site access (exact location plan can be provided if helpful); and**
- **A five-year period (or alternative period if you advise this is more appropriate).**

Please would you quote for the provision of the most recent five years Road Traffic Collision stats covering the study area as per the attached image.

The general area can be found here:

Method

The injury road traffic collision (RTC) data is sourced from the Home Office Stats19 returns for the period of 01/01/2021 to 31/01/2026. Please note that 2024, 2025 & 2026 data is considered provisional, therefore subject to change. This data has been broken down to show date, time, location, severity, collision type, and road conditions. Of note: there are no causation factors recorded for damage only collisions.

Findings

There has been one slight collision involving a motorcycle in this area which occurred 10th January 2021 at 1340hrs with the motorcyclist having just exited the roundabout on the B4545. This collision had a causation factor of wet road conditions.

There have been no further injury collisions during this time period, and the table below shows the number of damage only collisions occurring in this area and includes the date and time of the collision.

Collision Type	Date	Time
Damage Only	29/01/2021	19:05
Damage Only	02/02/2022	14:54
Damage Only	25/05/2022	19:10
Damage Only	28/05/2022	01:02
Damage Only	31/05/2022	12:07
Damage Only	28/06/2022	14:33
Damage Only	07/08/2022	17:17
Damage Only	16/02/2023	17:30
Damage Only	31/03/2023	16:14
Damage Only	19/04/2023	15:06
Damage Only	26/04/2023	14:07
Damage Only	09/07/2023	13:22
Damage Only	28/11/2023	08:28
Damage Only	19/12/2023	21:33
Damage Only	05/03/2024	19:20
Damage Only	04/11/2024	17:28
Damage Only	20/11/2024	07:55
Damage Only	17/01/2025	13:27
Damage Only	24/02/2025	18:03
