2025	6809	6024	785

***If your force uses different terminology for any of the categories above, please provide the closest equivalent data and indicate the terminology used. Please have regard to the type of notice being contemplated in this information request : defined as type of notices issued by the police (as described at the beginning of this information request) falling within the definition contained in Police powers and procedures: Roads policing, to December 2023 - GOV.UK (ie. section 1.1 'Main Findings' states "... recorded motoring offences [...] for speed limit offences...."**

To help the police discharge its section 16 FOIA obligations : this question seeks to ascertain how many speeding offences were generated by the camera network (see note below regarding fixed versus mobile camera network sub-groups) during the period in question, and of those that were not cancelled (for whatever reason), how many resulted in driver awareness courses, settlement by way of acceptance of conditional offers of fixed penalties directly with the police, and how many had to be settled in court. Furthermore, logically the totals in the response should add up as follows:

(C) plus (D) plus (E) = (A) minus (B)

Please answer (A) to (E) above for two separate groups of equipment : (A) fixed speed cameras; and (B) mobile speed cameras (eg. either handheld or in a mobile van). This means : I would like to know (A) to (E) for the fixed camera network; and I would also like to know (A) to (E) for the mobile camera network

***We are still administering offences from 2025 so some of the totals may be changeable**
