2026/266 - Palantir Technologies UK Ltd

In response to your recent request for information regarding;

I am seeking copies of any and all documents, records, or information held by your Police Force relating to the use, procurement, trial or deployment of services, platforms or software provided by Palantir Technologies UK Ltd, including (but not limited to) Gotham, Foundry or any related analytical or AI-enabled systems.

Specifically, I request the following:

1. Contracts and Commercial Arrangements

- **A list of all current and past contracts or agreements with Palantir Technologies UK Ltd, including start and end dates, contract values, and renewal provisions where applicable.**
- **Any memoranda of understanding, pilot agreements, or trial arrangements.**

2. Data Governance and Legal Documentation

- **Any and all Data Processing Agreements.**
- **Any and all Data Sharing Agreements.**
- **Any and all Data Protection Impact Assessments (DPIAs), Equality Impact Assessments, Algorithmic Impact Assessments, or similar risk or compliance assessments.**

I note that many UK police forces have previously declined to confirm or deny the existence of information relating to Palantir. However, police forces including Bedfordshire and Leicestershire have since publicly confirmed using the company's services. This establishes a clear precedent for confirmation and disclosure. Furthermore, Palantir is a well-known provider of technologies that rely on artificial intelligence and advanced data analytics. Given the significant public interest in the lawful, proportionate, and transparent use of such technologies in policing, I consider disclosure to be strongly in the public interest.

No information is held in relation to your request.
