**Keyword search: Within the "MO" (Modus Operandi) or "Summary" fields of domestic abuse reports, a count of how many records contain the keywords: "cousin", "consanguineous", or "first cousin".**

**Outcome data: For the incidents identified in Question 2, please provide a breakdown of the outcomes (e.g., Charge/Summons, Caution, Evidential Difficulties, or Case Closed).**

**Relationship Context: If held within your reporting system, a breakdown of the relationship between the victim and the suspect in these cases (e.g., spouse, sibling, parent).**

**If a keyword search of all domestic abuse files is deemed to exceed the cost limit, please prioritise the search within cases already flagged as Honour-Based Abuse. However, from corresponding with other forces, I expect this not to be the case as they have**
