2026/456 - Speed and Traffic Signal FPNs

In response to your recent request for information regarding;

*Data has been run on calendar year 1st Jan 25 to 31 Dec 25 as the report won't run part month reports accurately and offences from April 2026 and six months previously are still being administered so the data is changable**

** I can only provide the value of the offers made and not the total as we don not hold this information. The revenue from the fines goes to the treasury**

Please provide the following information as regards fixed penalty notices (FPNs) issued during the 2025-2026 fiscal year (i.e. 6th April 2025 to 5th April 2026). Or if you report on this per calendar year then this format is also acceptable:

Please first note the following clarifications:

- When I refer to "value of FPNs" please provide the face value of the FPNs issued regardless of whether subsequently paid or contested
- The below requests refer to all instances where an FPN was the primary disposal, excluding cases where a speed awareness course was offered in lieu. This is apart from the final question that specifically asks about speed awareness courses.

For all roads under your jurisdiction:

- **Total number of speed-related FPNs issued on all roads under your jurisdiction - 34339**
- **Total value of all speed-related FPNs issued on all roads under your jurisdiction – Value is £100**
- **Total number of traffic signal-related FPNs issued on all roads under your jurisdiction - 15**
- **Total value of all traffic signal-related FPNs issued on all roads under your jurisdiction – Value is £100**

Location	FPN issued	Value per FPN
A548 Wellington Road, Rhyl	12	£100
Bodfor Street, Rhyl	3	£100

- Total number of speed-related FPNs broken down by vehicle make/brand (e.g. Ford, BMW, etc) for the top 30 vehicle makes/brands with the most FPNs issued. Provide the total number of FPNs and the total value of the FPNs issued for each of these vehicle makes/brands. To clarify, I just want the data split by vehicle make/brand, not the model.

* we work from two administration systems, migrating information from one to the other to process a Conditional Offer (FPN) and some details don't always migrate over and as such, details of make/model of vehicle can be missed and not populate and as such, the data differs. The total on the attached is the data on the system for FPN's issued between 01/01/2025 and 31/12/2025**

- Total number of traffic signal-related FPNs broken down by vehicle make/brand (e.g. Ford, BMW, etc) for the top 30 vehicle makes/brands with the most FPNs issued. Provide the total number of FPNs and the total value of the FPNs issued for each of these vehicle makes/brands. To clarify, I just want the data split by vehicle make/brand, not the model.
