

Response Date: 13/05/2026

2026/463 - Drug-facilitated sexual assault

In response to your recent request for information regarding;

How many offences were recorded each year (2015–2025) where a victim was allegedly drugged or had a substance administered without their consent by an intimate partner (spouse, cohabiting partner, or boyfriend/girlfriend), and a sexual offence was subsequently committed against them while incapacitated? Please include data regardless of how the investigation originated- whether victim-reported, arising from third parties, device seizures, platform referrals, or where police identified and approached the victim directly.

2. In how many of those cases were there allegations that one or more third parties also committed or attempted to commit a sexual offence against the victim while they were incapacitated? Please include the total number of suspects identified across each case and data for suspects for non-contact offences.

3. Of those recorded offences, how many resulted in:

- (a) arrest of a suspect
- (b) arrest of additional suspects within the same investigation
- (c) a file submitted to the Crown Prosecution Service
- (d) a conviction
- (e) no further action

4. In how many cases was there an allegation or evidence that images or video recordings of the victim were made without their consent during the offence?

5. Of the cases in question 4, in how many was there an allegation or evidence that such material was shared with third parties via: (a) adult or pornographic websites; (b) encrypted or private messaging platforms; (c) file-sharing platforms?

**Yn gwneud Gogledd Cymru'r lle mwyaf diogel i fyw, gweithio ac ymweld yn y DU
Making North Wales the safest place to live, work and visit in the UK**

Please provide a count for each category where recorded (note: I am not requesting a breakdown by individual platform name, only by category, to assist with proportionality).

6. This final question is not limited to cases involving an intimate partner. How many recorded offences or investigations between 2015 and 2025 have featured suspected DFSA where video or imagery of the victim being sexually assaulted whilst in a state of incapacitation was subsequently posted on: (a) adult or pornographic websites; (b) encrypted or private messaging platforms; (c) file-sharing platforms? Please provide a count for each category where recorded. Please include data regardless of how the investigation originated- whether victim-reported, arising from third parties, device seizures, platform referrals, or where police identified and approached the victim directly.

Our information is set up and searchable for our policing purposes. A key word search for terms related to spike/drug has been performed. To obtain all the information in the format you have requested would involve manually reviewing each record on our force system. The cost of providing you with the information is above the amount to which we are legally required to respond i.e. the cost of retrieving the information exceeds the 'appropriate level' as stated in the Freedom of Information (FOI) Fees and Appropriate Limit regulations 2004.

Therefore, in accordance with the FOI Act 2000 the information you have requested is exempt under Section 12 (1), and this letter acts as a Refusal Notice under section 17 (5) of the legislation.

Although excess cost removed the forces obligations under the Freedom of Information Act, as a gesture of goodwill, I have supplied information, relative to your request, retrieved or available before it was realised that the fees limit would be exceeded. I trust this is helpful, but it does not affect our legal right to rely on the fees regulations for the remainder of your request.
