2026/472 - Number of speeding fines (FIXED PENALTY NOTICES) issued to official cars /vehicles

In response to your recent request for information regarding;

The number of fixed penalty notices (FPN/FPT) issued over the past five years for speeding. I would like to know the number of notices issued for the years 2021, 2022, 2023, 2024 and 2025.

Please note: the below relate to all FPN's (not just 'official vehicles'), we are not able to break this information down further.

Year	Total
2021	18471
2022	20816
2023	21968
2024	28835
2025*	34339

* This total is changeable as we are still administering offences from the end of 2025.

I would like this broken down, if possible, by vehicle type, such as a marked patrol car, unmarked patrol car, van etc –

Please find attached (which relates to all vehicles – not just 'official cars /vehicles' - we are not able to break this information down further.

As we use two administration systems and migrate information from one to the other, the vehicle type isn't available but, in some cases, the make of the vehicle is.

We have attached reports gained from one of our administration systems for each of the specified years. This holds data on the make of the vehicles recorded in the FPN workflow on the administration system.

This total will differ to the total FPN's recorded as the information is not captured or recorded during migration.

I would also like to know the number of appeals against FPN/FPT for each of those years and the number which were successful/unsuccessful.

We do not hold this data.
