2026/822 - AI disciplinary cases

In response to your recent request for information regarding;

Part way through my process of gathering responses, one force told me it had opened a criminal investigation into one of its officers who had allegedly misused AI chatbots when preparing evidential material.

I had not specifically asked in my questions whether forces had opened any criminal or disciplinary cases against officers or staff over alleged misuse of AI programs.

I'm consequently going back to forces to which I didn't put that explicit question to ask whether they have had cases where officers or staff have faced disciplinary or other investigations over alleged improper AI use.

Have there been any such cases at your force?

North Wales Police have no criminal investigations into officers who allegedly misused AI.
