2026/890 - Mobile Phone Driving Offences and Enforcement

In response to your recent request for information regarding;

Under the Freedom of Information Act 2000, I would like to request information relating to offences involving the use of a hand-held mobile phone or device while driving.

Please provide the following information separately for:

2023

2024

2025

1 January to 31 July 2026, or the latest complete full month of data available if July 2026 data is not yet finalised

1. Mobile phone driving offences

Please provide the number of offences recorded for "Use a handheld mobile phone/device while driving a motor vehicle on a road - endorsable offence" (RV86019, or the equivalent offence code used by your force).

2. Method of detection

If the method or source by which the offences in Question 1 were detected is centrally recorded, please provide a breakdown using the categories held by your force.

Where identifiable within those existing categories, please separately identify offences detected through:

a. directly by police officers, including officer stops or direct observation b. footage or evidence submitted by members of the public, including Operation Snap or an equivalent scheme c. cameras or other automated enforcement technology d. any other recorded method.

If the information is held using different categories, please provide the breakdown in the format in which it is centrally held.

3. Roads or locations with the highest number of offences

If the road or location of the offences in Question 1 is centrally recorded and the highest locations can be identified without a manual review of individual offence

Pencadlys yr Heddlu,
Glan-y-Don, Bae Colwyn LL29 8AW
www.heddlugogleddcymru.police.uk

Police Headquarters,
Glan-y-Don, Colwyn Bay LL29 8AW
www.northwales.police.uk

**Yn gwneud Gogledd Cymru'r lle mwyaf diogel i fyw, gweithio ac ymweld yn y DU
Making North Wales the safest place to live, work and visit in the UK**

records, please provide the five roads or locations with the highest number of offences across the full period 1 January 2023 to 31 July 2026, or the latest complete full month of data available if July 2026 data is not yet finalised, together with the total number of offences recorded at each.

Please disregard this question if identifying the highest locations would require a manual review of individual offence records.

I am seeking information available from centrally searchable records and am not asking for a manual review of individual offence or case records.

If any of the requested breakdowns cannot be provided exactly as specified but the information is held in a similar readily available format, I would be grateful if you could provide the closest available equivalent and explain how the data is categorised.

Officer detected offences:

OFFENCE_DATETIME	CCCJS_OFFENCE_DESC	LOC_STREET
