2026/953 - Missing Persons

In response to your recent request for information,

Our information is set up and searchable for our policing purposes. To obtain all the information in the format you have requested would involve manually reviewing each record on our force system. The cost of providing you with the information is above the amount to which we are legally required to respond i.e. the cost of retrieving the information exceeds the 'appropriate level' as stated in the Freedom of Information (FOI) Fees and Appropriate Limit regulations 2004.

Therefore, in accordance with the FOI Act 2000 the information you have requested is exempt under Section 12 (1), and this letter acts as a Refusal Notice under section 17 (5) of the legislation.

Although excess cost removed the forces obligations under the Freedom of Information Act, as a gesture of goodwill, I have supplied information, relative to your request, retrieved or available before it was realised that the fees limit would be exceeded. I trust this is helpful, but it does not affect our legal right to rely on the fees regulations for the remainder of your request.

We are seeking data held in your force's Case Management System.

For all of the following questions please provide the data broken down by the ethnicity codes that one of the following two ways of recording ethnicity: 6+1 classification or 18+1 classification.

How many people in your area went missing between 1 April 2025 and 31 March 2026? Please provide the numbers broken down by ethnicity and by age. In this question we are asking for the number of individuals, not total incidents/investigations:

**0 - 17 years
18+ years
Unknown age**

**Yn gwneud Gogledd Cymru'r lle mwyaf diogel i fyw, gweithio ac ymweld yn y DU
Making North Wales the safest place to live, work and visit in the UK**

Data provided below taken from the national data returns provided to the UK Missing Persons Unit at the NCA for the 2025-26 Financial year.

Please note: Table 7 - The data extracted from Niche RMS using Power BI Launchpad report to source data. The numbers broken down by demographics are taken from the nominal profiles created on Niche RMS as opposed to being recorded per missing incident, hence the discrepancy between nominals and missing incidents. On occasion, multiple persons are added to one occurrence. Also, the age group of an individual could change through the course of the year.
