2025/774 - Speed cameras

In response to your recent request for information regarding;

1. Which three fixed position speed cameras in your area were responsible for (i) the issuing of the most notices of intended prosecution (NIPs) to suspected speeders in the combined three-year period of 2022, 2023 and 2024? By this I mean which three cameras were the busiest across the entire three-year period rather than which three were busiest in each year. Hence the response should be just three camera sites and no more.

Between 01/01/2022 and 31/12/2024 the cameras for issuing the greatest number of NIPs can be found in the table below.

Please note: this data set also includes the LEZ Air Quality cameras.

- A494 Tua'r dwyrain Garden City i Gyfnewidfa Parc Diwydiannol Glannau Dyfrdwy, Sir y Fflint (Ansawdd Aer) / A494 Eastbound Garden City to Deeside Industrial Park Interchange, Flintshire (Air Quality)
- A483 Northbound Junction 5 to Junction 6, Wrexham (Air Quality)
- A55 Rhualt Westbound, Denbighshire

2. Please provide me with the position of each of the three cameras along with the number of NIPs that each of these three was responsible for over this three year period.

Location	NIPs	Latitude	Longitude
A494 Eastbound Garden City to Deeside Industrial park Interchange, Flintshire (Air Quality)	19903	53.22605	-2.99682
A483 Northbound Junction 5 to Junction 6, Wrexham (Air Quality)	12763	53.06944	-2992936
A55 Rhualt West Bound, Denbighshire	11711	53.27104	-3.33043

3. If possible please provide me with the number of (i) FPNs and (ii) driver education courses that were accepted as 'punishment' by the people issued with the NIPs at each of the camera sites identified by Question 1.

NOTE: Please include average speed cameras for this analysis where the cameras have remained in the same position.
